

Metrics-driven Senior Project Manager recently creating a new PMO and supporting processes to achieve client goals ahead of schedule and budget expectations in various industries. An expert resource and team leader consistently improving project profitability, by mitigating exposure to budget and scope creep. Currently pursuing PMP certification to increase personal business expertise. **Areas of Expertise include:**

- Project Management
- Risk Management
- Technical Training
- PMO Creation
- Contract Negotiation
- Project Documentation
- Process Improvement
- Client Management
- Financial Management

Professional Experience

SANOFI PASTEUR • Swiftwater, PA • 2015 - 2016

The vaccines division of the multinational pharmaceutical company Sanofi.

PROJECT PERFORMANCE MANAGER

Ensured operational consistency following the launch of PMO, providing hands-on support for teams and establishing/managing project scope, goals, and schedules. Built and established relationships with senior leadership teams to align project management and risk mitigation strategies with overall corporate operations strategy. Provided comprehensive project reporting to maintain transparency to executive leadership on project successes. Mentored risk management best practices for projects, mitigating the occurrence of any scope, schedule, or budget complications.

Key Accomplishments:

- Maximized utilization and impact of information security practices by leading the development and execution of a strategic project to identify and secure devices within the manufacturing facility.
- Led a project team of subject matter experts that secured FDA approval for the distribution of a cutting-edge drug vaccine.
- Achieved project goals by maintaining operations environments committed to continuous improvement and resource accountability.
- Standardized project management processes and procedures by creating a new Project Management Office, authoring a Project Management Handbook and by developing a SharePoint site to monitor project milestones and resources.
- Designed and implemented a site-wide risk management training program.

FREEZER INTEGRATION CONSULTING, LLC • Denver, CO • 2014 – 2015

An engineering services business

MANAGER OF PROJECTS

Streamlined key project management processes, directing departmental processes to complete multiple refinery projects. Maintained the confidence of the company president by providing comprehensive reporting on every project.

Key Accomplishments:

- Prepared and authored a project execution plan and coordination procedure for Freezer.

AMCS CORPORATION • Bedmister, NJ • 2014

A leading global supplier of industrial gas and process plants, technology, and engineering services

PROJECT MANAGER

Attained all KPI's for engineering, design, project control, and procurement supporting the Air Separation Plant equipment supply. Developed required documentation for start-up support services.

MIDDOUGH INC. • Mount Laurel, NJ • 2013 – 2014

A private, nationally ranked engineering, architectural, and management services company

PROJECT MANAGER

Built a high-performance engineering, project management and procurement team.

Key Accomplishments:

- Successfully completed all project phases on time and within budget by coordinating proposal preparation and project execution.

WINK ENGINEERING/WILLBROS ENGINEERS • Baton Rouge, LA • 2011 – 2013

An engineering and design services company focused on refining chemical and bulk terminal industries

SENIOR PROJECT MANAGER

Played an integral role in company growth by developing and winning project proposals for specialty chemical contracts. Managed engineering and design, project control and procurement phases of project execution to best maintain contract parameters.

Key Accomplishments:

- Created an appropriation grade $\pm 10\%$ estimate to improve equipment efficiency.
- Developed an order of magnitude $\pm 40\%$ estimate to increase reliability and capacity of a proprietary unit for an international specialty chemicals company.

JACOBS ENGINEERING GROUP • Mt. Laurel, NJ • 2010 – 2011

A global provider of technical, professional, and scientific services

PROJECT MANAGER

Centralized the management of engineering, project management, project control and construction including cost and scheduling, estimating and procurement.

Key Accomplishments:

- Managed a team of designers and engineers for civil/structural, piping, electrical, instrumentation, and process engineering.
- Approved all Process Flow Diagrams (PFDs) and Piping and Instrument Diagrams (P&IDs).

HITACHI POWER SYSTEMS AMERICA, LTD. • Basking Ridge, NJ • 2007 – 2009

A single solution provider for existing and evolving energy needs

PROGRAM MANAGER

Managed multimillion-dollar projects in pollution control and power plant markets. Maintained schedules, budgets, estimates, project planning, and technical delivery status. Collaborated with engineering SME's to eliminate technical performance issues.

Key Accomplishments:

- Coordinated SCR System Catalyst Design and Supply contracts for multiple power plant companies. Secured profits of over \$7 Million.
- Led financial team to successfully obtain \$29M in contracted client guarantees.
- Secured \$150k in add-on business in multiple contracts.

Additional experience as Proposal Manager and Project Manager with Foster Wheeler, USA.

Education & Training

Bachelor of Arts in Organic Chemistry, UNIVERSITY OF TOLEDO | Toledo, OH
