ACCOMPLISHED PROJECT MANAGEMENT OFFICE (PMO) LEADER

With over 20 years of global experience in Information Technology including 13 years in Honeywell IT, I presently direct and oversee the PMO for Honeywell Global Security (HGS), responsible for a \$10M portfolio of cyber and physical security programs.

In my previous role as PMO Leader for PMT, I led the IT PMO for a \$9.9B business unit in Honeywell. I have deep knowledge and experience on vision, strategy, design, development and implementation of PMO processes and policies as well as day-to-day operations. I have directed over 50 project managers and over 150 projects in end to end project management life cycle from initiation to closure to meet organization goals and requirements. I have experience and expertise in Waterfall as well as Agile / Scrum project management methodologies.

PMO Leader / IT Manager – Honeywell Global Security, US (Dec 2016 – Present)

Morris plains, New Jersey, United States

- Established and led the Project Management Office (PMO) to manage multiple large-scale, highly complex and global security programs, including Data Loss Prevention (DLP), Securonix / Behaviour Analytics, Rogue Devices Remediation, Physical Security Risk Assessment and Security Operations Center (SOC) server migrations.
- Developed governance model, defined and implemented PMO processes, tools and templates for the portfolio of cyber and physical security programs.
- Provided leadership, training, mentoring and guidance to Project Managers.
- Ensured that the processes are consistent, repeatable and based on best practices.
- Improved the project management maturity and enabled project managers to successfully complete the projects on time and within budget.
- Developed and distributed timely and relevant portfolio analytics and status to Chief Security Officers (CSO) and leaders.
- Empowered the team to collaborate easily through the latest tools like Microsoft Teams and SharePoint Office 365.
- Branded the services of HGS to other Honeywell Business groups, as a designated ambassador to HGS.
- Developed, managed and communicated project and program plans, budgets, costs, schedules, resource planning and risk management plans
- Developed and maintained a productive working relationship with project sponsors, project managers, customers, vendors and other key stakeholders.

PMO Leader – Honeywell Performance Materials and Technologies (PMT), US (May 2015 – Nov 2016). Morris plains, New Jersey, United States

- Led and guided over 50 project managers for over 150 projects annually to follow the PMT IT PMO process during the complete Project life cycle, from initiation to closure.
- Facilitated prioritization meetings with senior leadership to manage project demand and intake based on agreed upon KPIs and business cases.
- Reviewed and approved the work of project managers including business cases, charters, status reports, change requests and closure documents.
- Developed new processes and improved existing processes for various stakeholders.
- Designed and generated financial spend and forecast reports of projects for leaders.
- Implemented corrective actions based on the early warning indicators from Performance metrics.
- Established and facilitated governance meetings from prioritization to closure.
- Improved PM productivity by addressing process challenges as they surfaced.
- Developed Investment Spend and Forecast reports and improved low forecast accuracy projects.
